

# Environmental Priorities Coalition

A network of over 20 leading environmental groups in Washington that influence policy at the state level.

Last legislative session, you heard from us about closing the Big Oil tax loophole. Now, as we near July 4th, it's a perfect time to declare our independence from Big Oil! [Today we have a real opportunity to declare independence from dirty oil--by supporting a Clean Fuels Standard for Washington.](#)

A Clean Fuels Standard will give clean, homegrown fuels a fair shot in the marketplace, creating jobs and cleaning our air. **Communities across Washington State are ready to reap the benefits that come with clean fuels, but we need to get Big Oil out of the way. That's where you come in.**

[Declare your independence from Big Oil--Support a Clean Fuels Standard today!](#)

Every year, oil industry lobbyists ply their trade in state legislatures across the country, working to maintain their monopoly over our transportation fuels. They know that when we lack transportation choices, that means outsized profits for oil companies.

[We deserve better. Let's really honor Independence Day this year: let's show our support for replacing dirty oil with homegrown clean fuels. Let's take control of our economy, our politics, and our health.](#)

We can do better than fossil fuels!

Thanks for all you do,  
Lisa
