

## Environmental Priorities Coalition

A network of over 20 leading environmental groups in Washington that influence policy at the state level.

Dear \_\_\_\_\_,

For over a decade, the Environmental Priorities Coalition has been making strides toward cleaner air and water for all Washingtonians. Since our first legislative session in 2002, we have passed 16 legislative Priorities and secured hundreds of millions of dollars in funding for environmental projects that create good jobs across the state. These results are tremendous! From energy efficiency improvements, to cleaning up Puget Sound, to eliminating toxic flame retardants, you've been with us.

### **And our next big opportunity is here.**

Next Tuesday in Olympia we are officially launching the Alliance for Jobs and Clean Energy. It is a broad and diverse coalition calling for strong action to address global warming. The Alliance for Jobs and Clean Energy is Washington State's first coalition of community organizations, business, labor, and environmental organizations dedicated to reducing global warming pollution, creating family-wage jobs, and securing a better future for our families.

Also on Tuesday, the House of Representatives will be holding a public hearing on the Carbon Pollution Accountability Act, a bill that is critical to moving us forward.

**We need YOU to show up in support!** We expect the oil industry and their allies to be focused on stopping this important bill, and we know that legislators need to hear and see the depth of support for bold action to reduce carbon pollution.

What: **Carbon Pollution Accountability Act House Environment Committee Hearing**

When: Jan. 27th 1:30pm

Where: House Hearing Room A, John L. O'Brien Building, Washington State Capitol

**RSVP here:** [jobs-clean-energy-wa.com/rsvp](http://jobs-clean-energy-wa.com/rsvp)

Please tell your family and friends and help spread the word! And thank you so much for your interest and your work,

Cathy
