

Although there are multiple Democratic candidates in the race for Governor, **there are clear differences between us**. Here are a few examples of what sets me apart:

I'm the only candidate:

- ✓ Leading the nation in protecting reproductive health data and expanding access to abortion medication.
- ✓ Not accepting donations from large corporations.
- ✓ Who took on the Trump Administration — and won — more than 50 times.
- ✓ To propose and pass legislation banning the sale of assault weapons.
- ✓ Defending workers by criminally prosecuting wage theft.
- ✓ Funded by thousands of grassroots supporters across Washington state.

With the continued support of generous grassroots individuals like you, our people-first agenda will triumph over corporate special-interest PAC money.
